Bloom

design Ed Van Engelen

The new Bloom chair is designed for both style and durability, this chair features a sturdy aluminum frame that provides exceptional strength while remaining lightweight and rust-resistant. The intricately woven seat and back add a touch of elegance while ensuring breathability and comfort.

BLOOM
Armchair

BLOOM
Stool

Nest Chair – where elegance meets durability.
Crafted with a solid aluminum frame, this chair offers unparalleled strength and stability for any outdoor setting. Its highly detailed woven pattern adds a sophisticated touch, making it the perfect blend of comfort and style for any outdoor space

design Ed Van Engelen

NEST
Armchair

NEST
Stool

Fan

the Fan Outdoor Chair. Featuring a solid aluminum base for strength and stability, this chair is built to withstand the elements while maintaining a lightweight feel. The playfully woven seat and back showcase a striking fan-inspired pattern, blending playful design with ergonomic comfort.

design Cristian Visentin

FAN
Armchair

FAN
Stool

Venice

design Edi & Paolo Ciani

The Venice collection is inspired by Deco Seating classics like the Bahama, Madrid and Brava. Redesigned frames, woven with cost effective ropes and wicker. Wrapped wicker gives the items in the Venice family a unique look with attractive pricing.

VENICE

PIPE
Lounge Set

With the 313 we see another Deco Seating classic, retrofitted to today's standards. Woven with fine round wicker and stackable through the slatted seat.

design Ed Van Engelen

313
Low back Armchair

Rialto

design Edi & Paolo Ciani

With the introduction of the Rialto, S'48 has added a standout piece to their collection. The chair's angel-like wings create a distinctive aesthetic, while the gently contoured seat and back ensure a comfortable sitting experience. The twisted wicker weave offers a natural appearance at an attractive price point. Additionally, the traditional cross-bracing between the legs has been replaced with an innovative leg connection, facilitating easy stacking.

RIALT
O Chair
Stool

RIALTO
Lounge chair

Leaf

design Edi & Paolo Ciani

We added a new, lightweight but extreme durable family of furniture, Leaf. It's playful open weaving-style- helps keeping your outdoor spaces light and bright. The armchair has two variations, with and without ropes wrapped around the arms, giving the user more options for customizing the item. Side and armchair, stool and a deep seating set are available with many more surprising new additions to come.

Stool

Polka

Inspired by the iconic fashion pattern of polka dots, we've reimagined our bestseller in full aluminum. The whimsically scattered holes echo the charm of polka dots, lending the chair a playful and modern appearance. With a wide array of color options for the frame, you can pair them with your chosen fabrics to craft a personalized 'fashion statement' that complements any outdoor setting.

Sofa two seater

Drop

design Ed Van Engelen

The Drop family is a collection of outdoor seating that expresses an articulated stringing system that gives the product unique personality. The types of stringing can also be alternated, to obtain an even more complex and sophisticated design, characterized by two different levels that represent two different weaves. The chair is a cockpit model, enveloping and comfortable where the whole frame is crossed by the lapels rope. The bases of the various models are solid and linear, functional and at the same time with a characterizing design, capable of becoming the protagonist of the environment in which it is proposed.

Dana

design Ed Van Engelen

Not only the Leaf family brings light back in your outdoor space, also the Dana family has a playful and light weaving style.

The weaving style of the Dana family is bold and sturdy, giving it a strong character. Sofa set, stools and a comfortable sunbed are currently available in the Dana family.

Nida is synonymous with design at the service of functionality. A collection of seats designed by Italian studioPANG entirely made of aluminium, with a square tubular section that draws the frame's silhouette. The rigor of the square section is interrupted and gradually softened in the armrest, which is made entirely of aluminium cast, creating an ergonomic and distinctive element that, at the same time, makes the chair unique. Seat and back are finished with a typical S'48 weaving, which allows the opportunity to offer a wide range of possible combinations.

Ala

design StudioPANG

An elegant, sinuous and harmonious collection that, thanks to a simple and elegant design, finds a solution for any environment that needs a product with character, able to personalize it with calmness and sobriety. The Ala family offers a refined dining chair and a cosy lounge set, each with a unique, simple and highly recognizable style that made this collection a must have to furnish any outdoor space.

ALA

Palma

design Deco Lab

A large collection made up of different interchangeable, practical and functional models. The simple and refined design of the Palma family guarantees high quality standards, durability and robustness, suitable for any environment in which it is placed. Each piece is highly stackable, with or without armrests, chairs and stools. The delicate intertwining of the rope gives the product a outdoor connotation and makes the product more attractive to the user. A wide range of colors, finishes, ropes and chromatic solutions make Palma the perfect solution for any outdoor space.

PALMA
Stool

Rio

design Ed Van Engelen

Rio is a large and diverse family of outdoor furniture characterized by a decisive and memorable design, capable of personalizing the environment in which it is placed. The collection consists of chairs, sofa sets, tables and lounge chairs. Each piece retains the characteristic features of the model, which are dictated by the geometry of the backrest, as well as by the dialogue that is created between the frame itself and the rich weaving of ropes that develops within it. A variety of ropes, fabrics and finishes with various combinations makes this collection even more extensive and functional.

Portofino

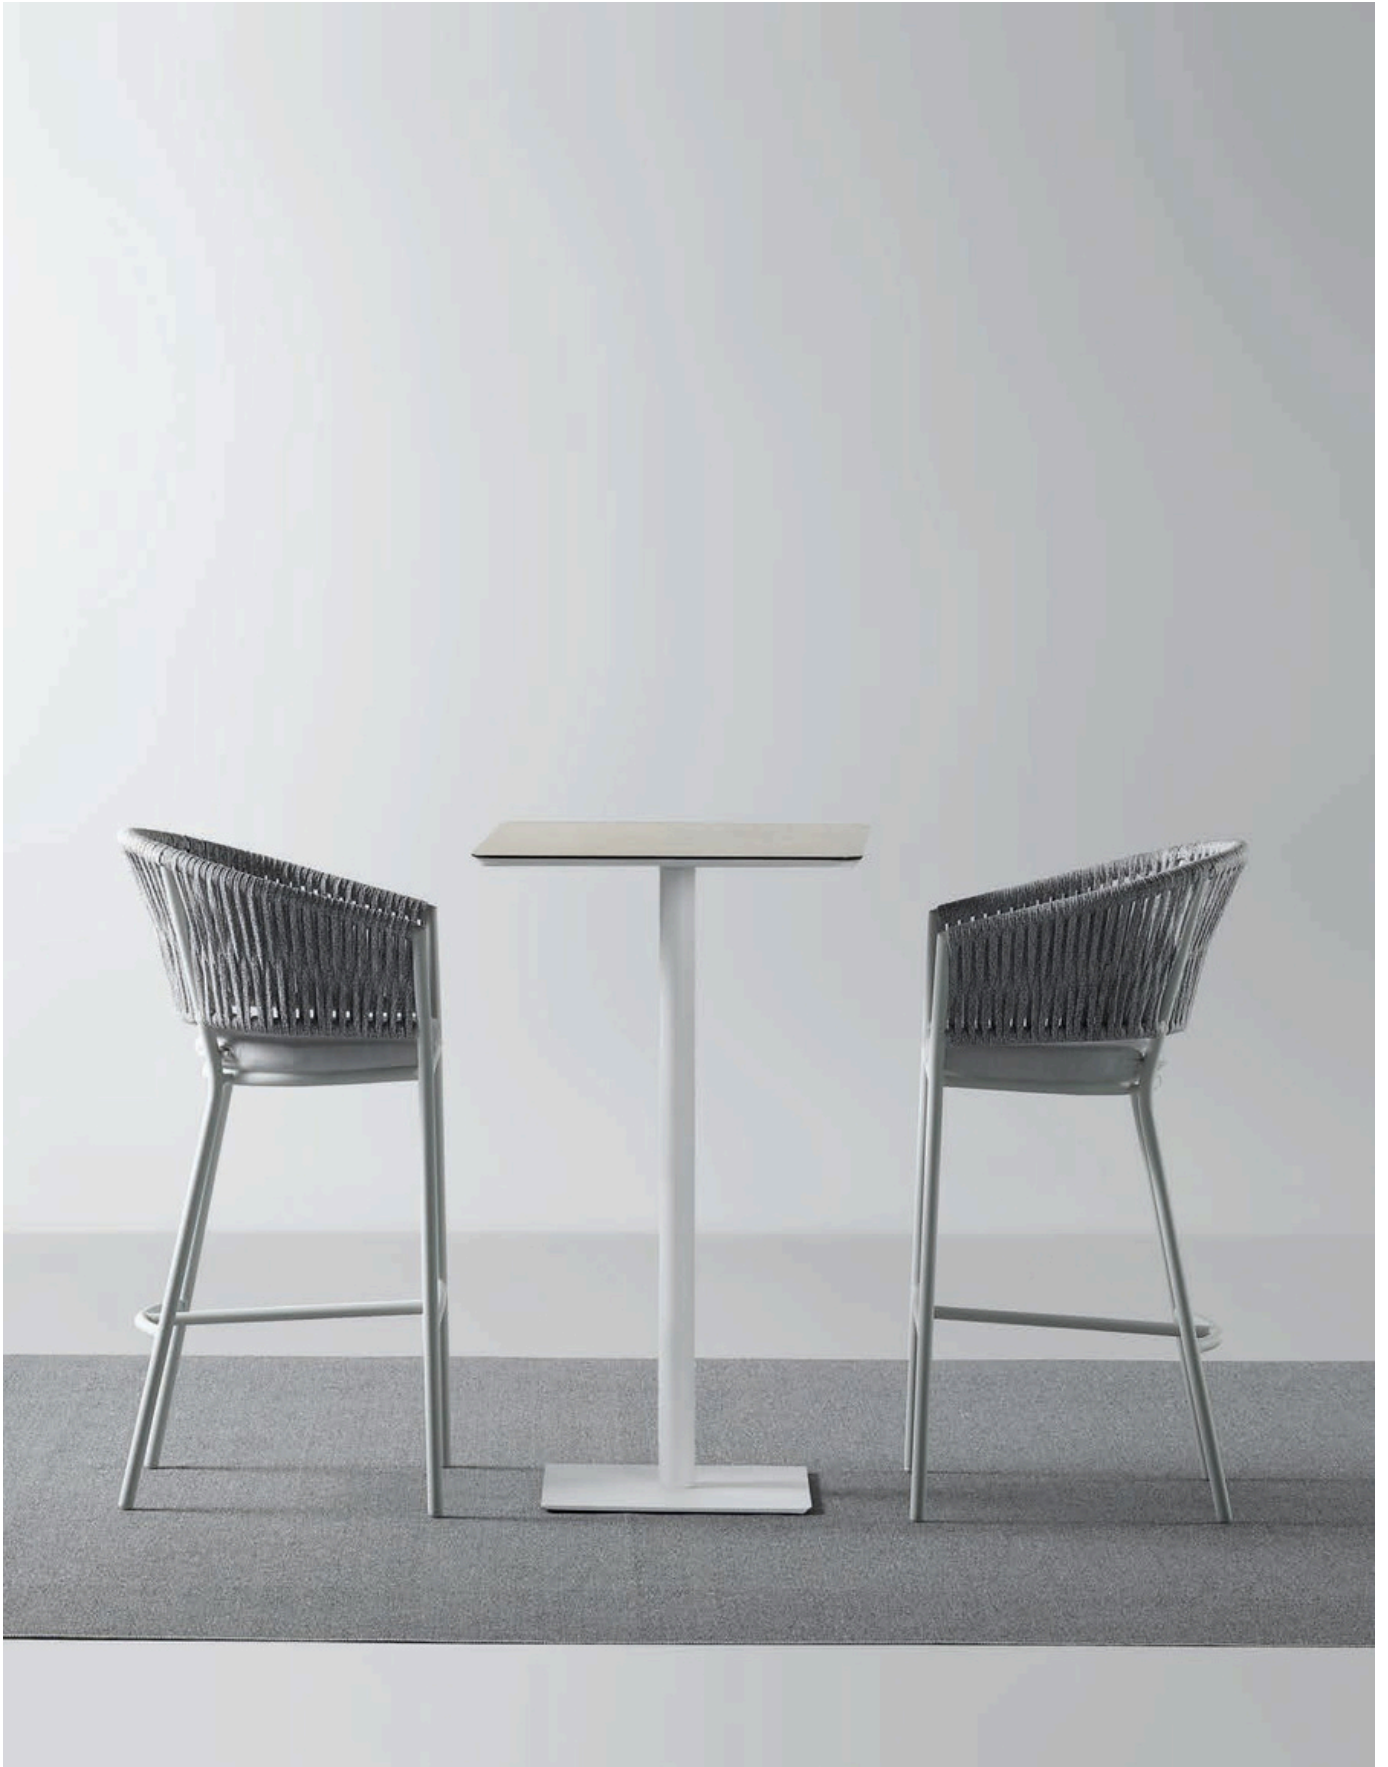

design Edi & Paolo Ciani

A collection of comfortable and elegant seats, where the rigor of the shapes contrasts with the delicacy with which the ropes configure the backrest. Effective weavings bring comfort and design to the entire collection, which includes various types of seats, such as chairs, stools and sofa sets. Thanks to the shape of the metal frame, the backrest looks like it is suspended from the base, generating an intriguing sense of lightness. Portofino allows a real wide customization of the products' finishings, offering many colors and materials.

PORTOFINO
Armchair

PORTOFOFINO
Stool

PORTOFINO
Sofa single seater

Quad

design Ed Van Engelen

A melting pot of different styles, materials and geometries, Quad proposes an armchair and a stool characterized by the encounter between sinuous and rigid shapes, for a surprising result of expressiveness and geometry. Seat and backrest interact with each other through different geometries and material finishes, where aluminium alternates with teak and braided rope, for an unpredictably and interesting design.

Slick

design Edi & Paolo Ciani

A family of seats with generous and enveloping shapes, where the design goes hand in hand with practicality and functionality. Seat and back meet in a sweet relationship of sinuous curves and geometries, to then be finished with a careful interweaving of ropes. All the seats in the Slick collection are easily stackable, both in the version with and without armrests. The family also includes lounge seats with their special coffee tables.

CARE INSTRUCTIONS

Ropes

Deco Mesh Rope is made from complex fibre strings strengthened with filament yarns that give them a durable and resistant structure, while our Deco Polyolefin rope is made from highly durable synthetic resin yarns. The structure of our ropes makes them stain-resistant and easy to clean. In case there is a spot to clean, please use following instructions: Non-greasy marks: warm water spot clean with half a spoonful of any standard washing powder or liquid (non-bleach) in a cup of hot water. Blot the stain with a cloth or a sponge dampened with this solution. Once the spot is removed, sprinkle the area with clean water to remove any possible traces of washing powder or liquid. Do not use stain removers. Oil or grease spots: butter, oil, lipstick, and the like will not penetrate the yarn, so it can easily be cleaned in the same way as mentioned above. Do not use high-pressure water spray equipment to clean the furniture in any case but use a general gardening hose instead if needed. Deco Ropes resist sunlight, saltiness, sunscreen cream, abrasion, sweat, stains, etc. for many years and provide worry-free maintenance.

Fabrics

S'48 uses only the best-quality mesh, acrylic, and olefin fabrics, which have proven their durability in daily use. All fabrics have been successfully tested by following the ROHS and REACH test standards. Cleaning the fabrics requires not more than lukewarm water, a cloth, and, on some occasions, a mild detergent. The fabrics are designed so that no dirt or water can penetrate the fibers, so simply wipe off any dirt with a (lukewarm) wet cloth.

Storage

When protected by a cover or stored indoors, make sure the fabrics and inner fillings of the cushions are completely dry to prevent possible infection by mould or fungus.

Aluminium and Steel

Clean aluminum and steel furniture parts with water, mild soap, and a sponge. After cleaning, rinse the furniture with plenty of water to remove any possible residue.

Teak

Teak is easy to clean with a combination of lukewarm water and soda. Use a soft brush to gently clean the affected part of the product. The colour of teak, by nature, turns over time into a nice silver/grey patina. This does not affect the durability or weatherproof resistance of the product. It is a cosmetic change, which is liked by many. In case you wish it to remain the original colour, there are various products on the market to help achieve this. Products like teak protector and teak oil, as well as various teak repairs help achieve this. When using a cover for your teak product, make sure you do not close the product airtight and leave some room for the teak to "breathe." This prevents mould or fungus growth, which can permanently damage the product.
