Cleo

design Ed Van Engelen

Inspired by the legendary divan of Queen Cleopatra, the Cleo outdoor sofa set brings a touch of regal luxury to your outdoor living space. This voluptuous sofa is designed to offer both opulence and comfort, making it the perfect centerpiece for your patio or garden. Crafted with a sturdy aluminum frame, the Cleo sofa ensures durability and stability, while the cost-effective wicker weaving adds a sophisticated and timeless appeal. Whether you are reading a book or enjoying a glass with friends and family, this sofa set provides the ultimate in relaxation and style.

Web

design Edi e Paolo Ciani

Discover the perfect blend of style, comfort, and durability with our outdoor chair featuring sleek sled legs and a robust powder-coated and e-coated steel base. Designed to withstand the elements, this chair promises longevity and resilience, making it an ideal addition to any outdoor space. The seat is intricately woven with high-quality wicker, offering a sophisticated look and exceptional comfort. This chair provides the ultimate seating experience and makes a perfect match with our new Beluga table, made of a fiber glass bas topped with a solid sintered stone top.

DINING TABLE

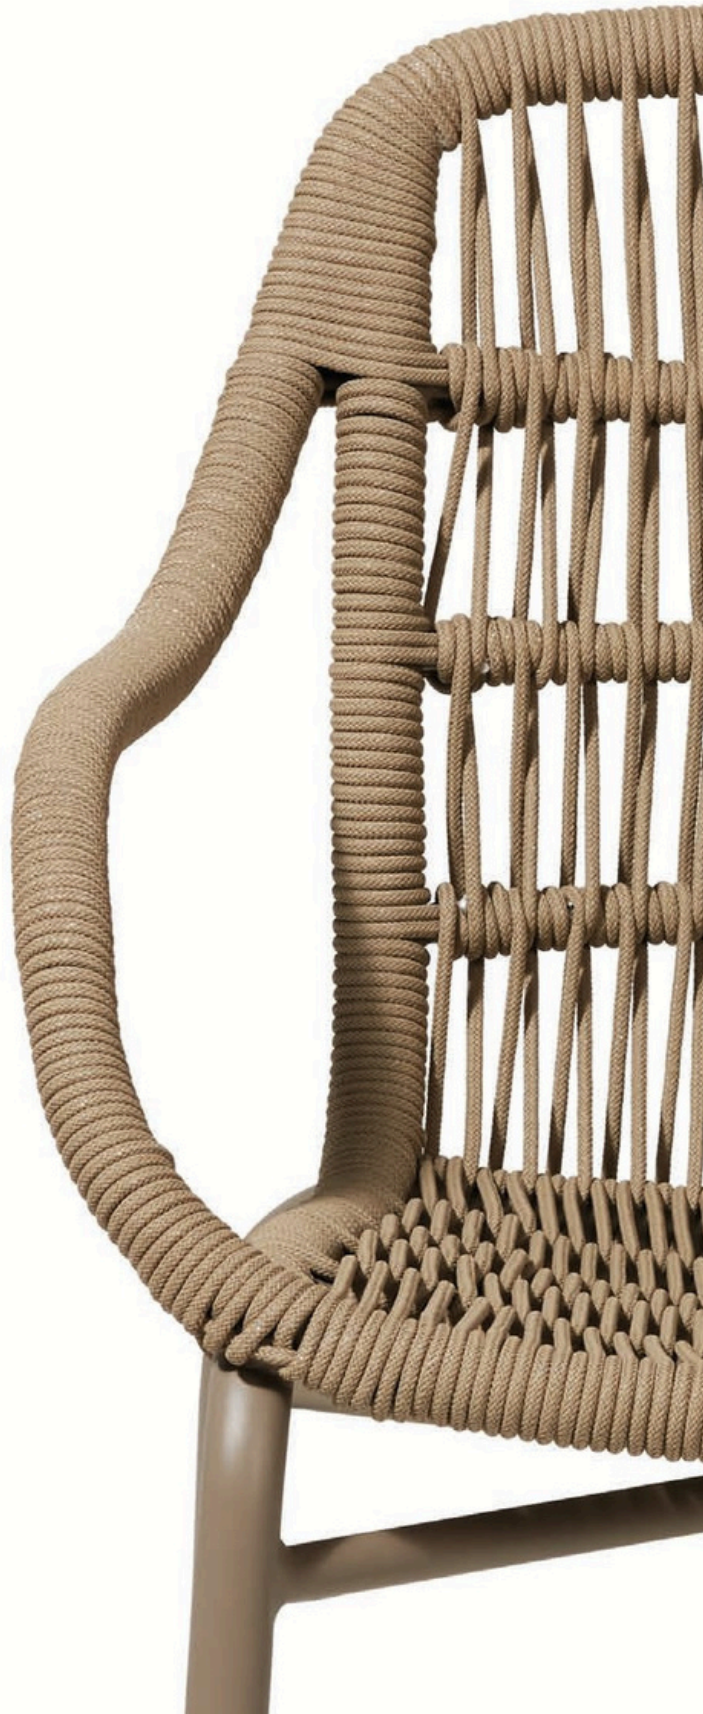

Leaf

design Edoardo e Paolo Ciani

We added a new, lightweight but extreme durable family of furniture, Leaf. It's playful open weaving-style-helps keeping your outdoor spaces light and bright. The armchair has two variations, with and without ropes wrapped around the arms, giving the user more options for customizing the item. Side and armchair, stool and a deep seating set are available with many more surprising new additions to come.

Diamond

design Edt e Paolo Ciani

Diamond combines a classic weaving pattern with small but very noticeable design elements.

The arm rest of the dining chair connects delicately to the back rest while the sofa set shows a nice harmony between an oval frame resting on sturdy rounded legs.

For this occasion we combined the Diamond dining chair with the Pipe dining table, designed by studioPANG, learning us that its perfectly fine to combine different products from different designers, leading to a perfect harmony.

Method

design StudioPANG

A wide collection with a strong personality, very recognizable and able to seduce any user. A special weaving system gives at the same time force and harmony to all the pieces: dining chair, stool, lounge set and daybed. The Method collection is a full journey in the outdoor world, where nautical ropes envelop an original and robust aluminium tube frame, giving life to a unique family of products with charm and elegant feeling.

Galleon

design Ed Van Engelen

A couple of pieces with a very strong personality where the warmth of teak meets an original aluminium frame, for a really sensational result. Galleon reminds the original structure of wooden hulls and the construction skills of the old craftsmen of nautical world, reinterpreted in a contemporary key for the world of outdoor furniture. The aesthetics are of sure effect, as well as the comfort and stability, for a collection able to be protagonist of any place you put it in.

Drop

design Ed Van Engelen

The Drop family is a collection of outdoor seating that expresses an articulated stringing system that gives the product unique personality. The types of stringing can also be alternated, to obtain an even more complex and sophisticated design, characterized by two different levels that represent two different weaves. The chair is a cockpit model, enveloping and comfortable where the whole frame is crossed by the lapels rope. The bases of the various models are solid and linear, functional and at the same time with a characterizing design, capable of becoming the protagonist of the environment in which it is proposed.

Lantern

design Ed Van Engelen - Deco Lab

Here is an ideal solution to complete the areas furnished with S'48 products with taste and consistency. Lantern is a collection of lamps made entirely of aluminium and rope that was created to be elegantly combined with any outdoor environment, but also, a transition between interior and exterior. Thanks to its simple design but at the same time rich in details, these lamps are perfect for warming the environment, bringing visual and bright comfort. The family includes three sizes of standing lamps and two floor versions, light and comfortable to freely move in complete autonomy.

CARE INSTRUCTIONS

Ropes

Deco Mesh Rope is made from complex fibre strings strengthened with filament yarns that give them a durable and resistant structure, while our Deco Polyolefin rope is made from highly durable synthetic resin yarns. The structure of our ropes makes them stain-resistant and easy to clean. In case there is a spot to clean, please use following instructions: Non-greasy marks: warm water spot clean with half a spoonful of any standard washing powder or liquid (non-bleach) in a cup of hot water. Blot the stain with a cloth or a sponge dampened with this solution. Once the spot is removed, sprinkle the area with clean water to remove any possible traces of washing powder or liquid. Do not use stain removers. Oil or grease spots: butter, oil, lipstick, and the like will not penetrate the yarn, so it can easily be cleaned in the same way as mentioned above. Do not use high-pressure water spray equipment to clean the furniture in any case but use a general gardening hose instead if needed. Deco Ropes resist sunlight, saltiness, sunscreen cream, abrasion, sweat, stains, etc. for many years and provide worry-free maintenance.

Fabrics

S'48 uses only the best-quality mesh, acrylic, and olefin fabrics, which have proven their durability in daily use. All fabrics have been successfully tested by following the ROHS and REACH test standards. Cleaning the fabrics requires not more than lukewarm water, a cloth, and, on some occasions, a mild detergent. The fabrics are designed so that no dirt or water can penetrate the fibers, so simply wipe off any dirt with a (lukewarm) wet cloth.

Storage

When protected by a cover or stored indoors, make sure the fabrics and inner fillings of the cushions are completely dry to prevent possible infection by mould or fungus.

Aluminium and Steel

Clean aluminium and steel furniture parts with water, mild soap, and a sponge. After cleaning, rinse the furniture with plenty of water to remove any possible residue.

Teak

Teak is easy to clean with a combination of lukewarm water and soda. Use a soft brush to gently clean the affected part of the product. The colour of teak, by nature, turns over time into a nice silver/grey patina. This does not affect the durability or weatherproof resistance of the product. It is a cosmetic change, which is liked by many. In case you wish to remain the original colour, there are various products on the market to help achieve this. Products like teak protector and teak oil, as well as various teak repairs. When using a cover for your teak product, make sure you do not close the product airtight and leave some room for the teak to "breathe." This prevents mould or fungus growth, which can permanently damage the product.
